

# Thulaganyo Vinolia Marumo

072 910 2695 | marumothulaganyo@gmail.com

## Objective

---

Motivated and detail-oriented final-year BSc in Information Technology student with a broad academic background in databases, networking, system analysis and programming. Experienced in academic and practical projects involving network design, cybersecurity labs, and software development. Strong analytical, problem-solving, teamwork, and communication skills with a commitment to continuous learning and professional growth in the IT industry.

## Education

---

- **Tetlano Secondary** 2021  
Grade 12
- **North-West University** 2022 - Current  
Bachelor of Science in Information Technology

## Technical Skills

---

- Programming Languages: Java, Python, C++, C#
- Database Concepts and SQL Query Writing
- Networking Fundamentals and Network Configuration
- System Analysis and Documentation
- Cybersecurity Fundamentals and Practical Labs (TryHackMe)
- Problem-solving, Analytical Thinking and Team Collaboration

## Project And Academic Experience

---

- **Computer Networking Project**
  - Designed and documented a hierarchical office network infrastructure
  - Applied network security measures and tested connectivity configurations.
  - Strengthened analytical and troubleshooting abilities through practical implementation.
- **Programming and System Analysis Coursework**
  - Gained practical exposure to Java, C++, Python and C# through coursework and assignments.
  - Applied structured system analysis techniques to assess system requirements and process.
  - Developed documentation, user requirements, logical modelling and business problem-solving skills.
- **Cybersecurity Practical Labs - TryHackMe**
  - Explored practical exercises involving vulnerabilities and flag retrieval.
  - Challenging but built awareness of cybersecurity principles.
  - Developed adaptability when tackling the technical troubleshooting.
